Dear Chairman Rogers, Ranking Member Smith, Chairman Wicker, Ranking Member Reed, Chairman Hill, Ranking Member Waters, Chairman Scott, and Ranking Member Warren:

Our organizations are proud to support the HOME Reform Act of 2025 and ask that you consider its inclusion in the upcoming National Defense Authorization Act (NDAA) conference agreement. The HOME Reform Act will improve the ability of communities to build more housing, increase affordability, and ensure federal resources are used effectively.

Alongside landmark bills such as the ROAD to Housing Act, the HOME Reform Act of 2025 builds on the growing bipartisan momentum in Congress to address the housing shortage. The bill allows HOME funds to support critical infrastructure tied to housing, creates flexibility around federal requirements that often increase cost and time to build, and expands tools for rental and homeownership preservation and development. Collectively, these reforms will enable housing providers to deliver new homes faster and more efficiently, giving more families access to affordable housing opportunities.

We understand that the conference process will include the negotiation of a wide array of policies. The HOME Reform Act of 2025 is a modest and targeted approach to strengthen the economic stability, readiness, and resilience that underpins our national security and helps ensure that adversaries cannot exploit vulnerabilities created by housing instability. Thank you for your leadership and continued work to secure our nation's future.

Sincerely,
